Categories: Distributors, News, Spray Foam Insulation

It's construction season, and we know that construction materials can be hard to come by right now—but not at Versi-Foam®. If you're a distributor looking for spray foam insulation, you're in luck, because we've got product available. Learn more about what Versi-Foam® has to offer and how our spray foam can help your clients complete all of the projects they have lined up this year.

Regulation-standard products

No matter what local regulations dictate, Versi-Foam® has products to suit your customer base. Our products do not contain any CFCs, Penta-BDEs, VOCs, or Urea-Formaldehyde. Moreover, we offer an eco-friendly formula that is Leed certified with 0 lb/gal of VOCs and no CFS'.

No hurdles, no delays

Your customers need spray foam, and they need it now. (Yesterday, even.) As a spray foam insulation distributor, it's your job to make sure your shelves don't go bare when they need more product. At Versi-Foam®, we have the following spray foam kits in stock for you:

- System 15: Available in Standard and Class I (flame-retardant) formulas, this closed-cell spray foam insulation kit produces 198 square feet of cured foam at a 1-inch thickness (16.5 cubic feet).
- System 50: Also available in Standard and Class I formulas, System 50 will produce 600 square feet of cured foam at a 1-inch thickness (50 cubic feet).
- System 10: This high-density system will produce 120 square feet of cured foam at a one-inch thickness (10 cubic feet).
- System 33: Another high-density spray foam, this system will produce 396 square feet of cured foam at a 1-inch thickness (33 cubic feet).

And we've saved the best news for last—there is only a one-week lead time on all of the spray foam insulation kits listed above. Versi-Foam® is here to help you get your customers the product they need in record time.

Flexible shipping

Let's figure out a way to get you the product you need as quickly as possible. Versi-Foam® offers flexible shipping opportunities for distributors. We work with hundreds of distributors around the world, so we're accustomed to working together to find a way to make sure everyone is happy. As such, our network spans far and wide, allowing us to help drive contractors and customers to you both online and in-store.

Solid R-values

We know what you're *really* curious about, and that's the R-values of our products. Of the closed cell spray foam systems we currently have in stock, all of the Standard formula kits have an R-value of R-7.7 per inch, while the Class I formula has an R-value of R-6.7.

P.S. Did you know Systems 10 and 33 are both great options for roof repairs? Trust us—you'll want to make sure you have some in stock.

Are you a distributor? Order spray foam now! Limited quantities are available.
